Volume 1
Basic devices and single-space systems

Specification guide to wallbox dimmers, switches, sensors
and accessories for commercial and residential applications

░LUTRON

Dimmer families are organized by wallplate opening style.

Dedicated sections follow for non-wallbox controls that also offer single-space solutions, including:
- Plug-in controls
- Connected home
- Commercial Wireless
- Sensors
- Wireless remote controls

Designer wallplate
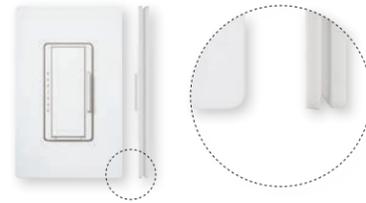

Designer product families

- Designer style opening
- Designer wallplates have rounded edges
- Claro/Satin Finishes wallplates and accessories
- Controls fit standard Designer opening wallplates
- Wallplates available separately

Traditional wallplate
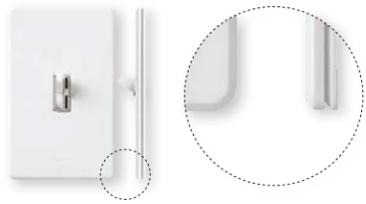

Traditional product families

- Traditional style opening
- Traditional wallplates have rounded edges
- Fassada style wallplates and Claro/Satin Finishes accessories
- Wallplates available separately

New Architectural wallplate
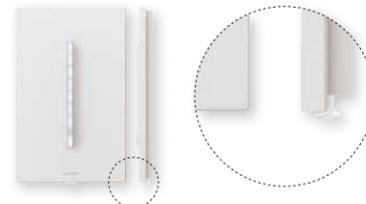

New Architectural product families

- New Architectural style opening
- New Architectural wallplates have squared edges
- New Architectural wallplates and accessories
- Single-gang White wallplate included with control; wallplates in additional colors and finishes are available separately

Architectural wallplate
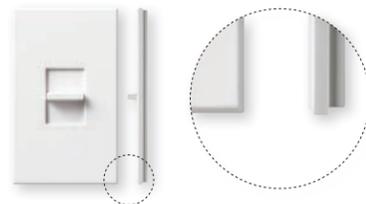

Architectural product families

- Architectural style opening
- Architectural wallplates have squared edges
- Architectural wallplates and Architectural accessories
- Single-gang wallplate included with control

Technical notes:

• Lighting load interfaces must be matched to load type and voltage

• Interfaces typically require additional power feeds

• Power feed to dimmer may differ from lighting load/interface voltage

• For wiring information, visit lutron.com/support

Use only dimmer model numbers listed.

* Visit **lutron.com/ledtool** for a recommended list of dimmable LED (screw-base) bulbs.

** Dual 120/277V model given, 120V-only versions are also available.

Technical notes:

• Lighting load interfaces must be matched to load type and voltage

⬚◗⬚ ⬚ Multi-location (up to 10 locations)

Product family features

- Will turn lights on as you enter a room and off after the room is vacated

- Passive infrared (PIR) or dual-technology detection with Lutron's exclusive XCT technology for fine and very fine motion detection

- Occupancy/vacancy (auto-on/auto-off or manual-on/auto-off) or vacancy-only (manual-on/auto-off) versions available

- Vacancy models meet California Title 24 requirements

- Dual-voltage (120 – 277 V) switch option available

- Sensor switch available in single- or dual-circuit models

- Dimmer sensors available for dimmable screw-in LED/CFL bulbs (LED+ model) or 0 – 10 V fixtures

- 180˚ sensor field-of-view

- Up to 30 ft x 30 ft major motion and 20 ft x 20 ft minor motion coverage

- Coordinating Claro, Satin Finishes and Stainless Steel wallplates only available separately

- All models must be derated unless otherwise noted. Visit **lutron.com/multigang** for more information.

- Occupancy sensors can be programmed to be vacancy-only sensors

Dimmer sensors

- Passive infrared (PIR) sensor with Lutron exclusive XCT technology

Dimmable LED/CFL (screw-base) dimmers
Incandescent/halogen dimmers

Digital fade LED+ dimmer, occupancy/vacancy, and vacancy-only sensor

Multi-location/3-way**/	MSCL-OP153M-**XX**[1]
single-pole	MSCL-VP153M-**XX**[1]*
120V 150W (LED/CFL),	
600W (Inc)	

Visit **lutron.com/LEDfinder** for our online compatibility tool.

Adjustable low-end trim.

0−10V LED/fluorescent fixture dimmers
(current sink control)

Digital fade 0−10V dimmer occupancy/ vacancy sensor

3-way**/single-pole	MS-Z101-**XX**[1]
120−277V 8A	MS-Z101-V-**XX**[1]*
50mA max. control current	

No power pack required.

Compatible with any IEC 60929 Annex. E compliant driver or ballast.

No derating required if ganged.

Single-circuit sensor switches

- Available with passive infrared (PIR) or dual-technology sensor
- All models feature Lutron exclusive XCT technology
- Adjustable timeout— 1, 5, 15, or 30 minutes
- High-low sensitivity adjustment
- Multi-location models work with up to nine companion switches

♨ **Switches**

Single-circuit PIR occupancy/vacancy sensor switches[†]

single-pole	MS-VPS6M2-DV-**XX**[1]*
120−277V 6A lighting,	
3A fan (1/10HP) @120V only	

No derating required if ganged.

XX[1]: Gloss and Satin color codes

Wallplates not included. Order separately.

* Vacancy-only model
** Works with standard mechanical 3-way switch
† Neutral wire and ground connection available, one required

Single-circuit dual-technology occupancy/ vacancy sensor switches

Single-pole	MS-A102-**XX**[1]
120−277V 6A lighting ,	MS-A102-V-**XX**[1]†
4.4A fan (1/6HP) @ 120V only	
Multi-location/ 3-way*/	MS-B102-**XX**[1]
single-pole**	MS-B102-V-**XX**[1]†
120−277V 6A lighting,	
4.4A fan (1/6HP) @ 120V only	

No derating required if ganged.

Dual-circuit sensor switches
(two loads)

- Available with passive infrared (PIR) or dual-technology sensor
- All models feature Lutron exclusive XCT technology
- Allows the control of two circuits from one sensor switch
- Ideal for bi-level switching in commercial buildings/helps meet codes such as ASHRAE 90.1 2010
- High-low sensitivity adjustment

♨ **Switches**

Dual-circuit PIR occupancy sensor switch ††

Single-pole	MS-OPS6-DDV-**XX**[1]
120−277V 6A lighting,	MS-PPS6-DDV-**XX**[1]
4.4A fan (1/6HP) 120V only per circuit	

No derating required if ganged.

Dual-circuit dual-technology occupancy sensor switches

Single-pole	MS-A202-**XX**[1]
120−277V 6A lighting,	
4.4A fan (1/6HP) 120V only per circuit	
3-way*/single-pole**	MS-B202-**XX**[1]
120−277V 6A lighting,	
4.4A fan (1/6HP) 120V only per circuit	

No derating required if ganged.

XX[1]: Gloss and Satin color codes

Wallplates not included. Order separately.

4.75 in (121 mm)

Shown actual size:
2-gang Claro wallplate in White (WH)

4.69 in (119 mm)

.30 in (7.6 mm) profile

Product family features

- Can be used in conjunction with the following dimmer(s), switch(es), sensor(s), and accessories: Caséta Wireless, Diva, Luméa, Maestro, Pico wireless, Skylark, Skylark Contour, Sunnata, Vive Maestro Wireless controls, and Vive accessories
- All Lutron wallplates are screwless, seamless, and have no visible hardware; the front plate securely snaps into the alignment adapter plate
- Full line of wiring devices in Designer style opening
- Blank inserts available for Gloss (DV-BI-) and Satin Finishes (SC-BI-)
- Customize your designer wallplate with engraving; visit **lutron.com/engraving** to get started

Ganging and derating

- Designer wallplates use standard ganging
- Requires fins to be removed from dimmers for proper spacing
- May require derating (i.e., reduction of dimmer capacity due to fin removal)

Receptacles for half dimming use

- Top half for dimming
- Projecting nub prevents standard plug from being used
- Requires replacement plug for dimming table and floor lamps
- Bottom half is a general use receptacle and will fit standard duplex plugs
- Tamper-resistant shutter mechanism

Half dimming, tamper-resistant receptacles

15 A 120/125 V	CAR-15-HDTR-**XX**[1]
	SCR-15-HDTR-**XX**[2]
20 A 120/125 V	CAR-20-HDTR-**XX**[1]
	SCR-20-HDTR-**XX**[2]

Replacement plug for dimming

- Required to be used with Lutron receptacles for dimming purposes—plug will also work in a standard receptacle
- Easily replaces the existing plugs on lamps

Replacement dimming plugs

120/125 V	RP-FDU-10-**XX**[1]

UL/CSA/NOM regulatory approvals.

Important notes

- Receptacles and plugs for dimming use are UL Listed for use with all Lutron wallbox dimmers included in this catalog.
- If there is only one electrical feed to the receptacle, then the duplex DFDU must be used.
- If the hot and dimmed hot feeds to the split duplex HFDU are supplied from different circuits or split-wired with separate switch-legs, a means to simultaneously disconnect these circuits must be provided at the panel board where they originate (NEC 210.7(C) 2002 Edition). A 2-pole circuit breaker or two single-pole circuit breakers with an approved handle tie can be used to accomplish this simultaneous disconnect. Feed-through dimming panels, which are those without breakers, are recommended when using the HFDU.
- For more information on dimming lamps consult Lutron Application Note #109, Guide to Dimming Portable Lamps via Receptacles, at **lutron.com/applicationnotes**.

Product family features

- Full family of controls plus matching fan controls, switches, and wiring devices
- Exclusive dimmer/switch size opening
- Slide adjusts light to suit any activity
- Classic slider, thin profile design
- Voltage compensation maintains stable light levels, despite line voltage variations
- LED+ model available
- Coordinating wallplate included with Architectural matte finish controls; metal wallplates only available separately
- All models must be derated unless otherwise noted. Visit **lutron.com/multigang** for more information.
- Select Nova and Centurion models available. Contact Customer Service for more information.

Control types

- Single-pole (1 location)
- 3-way or 4-way (2 or more locations)

Direct load type compatibility

- Dimmable LED/CFL lighting (screw-base)
- Incandescent/halogen lighting
- Magnetic low-voltage lighting
- Electronic low-voltage lighting
- LED lighting
- Fluorescent lighting
- Switched lighting/fan/motor
- Ceiling fans

Load types requiring load interface

- Neon/cold cathode lighting

Lighting load interfaces may be applicable for some additional load type, voltage, and capacity combinations. For additional information see "Lighting Load Interfaces."

Single-pole	NTFTU-5A-277-**XX**[1]
277 V 5 A	

XX[1]: Architectural matte color codes (1-gang wallplate included)

* Large control

XX[1]: Architectural matte color codes (1-gang wallplate included)

* Large control
** **Requires neutral wire connection**

Linear-slide mechanical switches

(small controls)

- Slide up to turn on, down to turn off
- Works with all load types

☝ General purpose switches

Linear-slide mechanical switches

Single-pole	NT-1PS-**XX**[1]
120/277V 20A	
3-way	NT-3PS-**XX**[1]
120/277V 20A	
4-way	NT-4PS-**XX**[1]
120/277V 20 A	

No derating required if ganged.

Slide-to-off fan controls

(small controls)

- Slide up to increase speed/turn on, down to decrease speed/turn off
- Quiet 3-speed model designed to prevent motor hum (for use with only one ceiling paddle fan)
- Fully variable model also available (for use with multiple ceiling paddle or exhaust fans)
- Higher capacity loads require large controls

✖ Fan controls

Slide-to-off fan control—quiet 3-speed

Single-pole	NTFSQ-**XX**[1]
120V 1.5A	

For use with only one ceiling fan.
No derating required if ganged.

Slide-to-off fan control—fully variable

Single-pole	NTFS-6E-**XX**[1]
120V 6A	
Single-pole	NTFS-12E-**XX**[1]*
120V 12A	

6A model provides an additional wire for switching fan light (360W, incandescent/halogen). Light turns on when fan is on, and off when fan is off.

Fully variable fan controls are commonly known as solid state fan controls.

Product family features

- Can be used in conjunction with Nova T☆ dimmer and switch, and Architectural accessories
- Metal and glass finish wallplates with accessory openings can also be used with Designer wallplate opening controls and Designer accessories
- All Lutron wallplates are screwless, seamless, and have no visible hardware; the front plate securely snaps into the alignment adapter plate
- Blank inserts available for accessory size opening (NT-BI-)
- Matte finish wallplates can be custom colored to perfectly match a paint color number, swatch or sample; contact Customer Service at 1.888.LUTRON1 for more information
- Customize your Architectural wallplate with engraving or by adding a corporate logo; visit **lutron.com/engraving** to get started

Ganging and derating

- Architectural wallplates in this section use standard ganging
- Requires fins to be removed from dimmers for proper spacing
- May require derating (i.e., reduction of dimmer capacity due to fin removal)
- Custom multi-gang wallplates required for the following cases
  – Full-capacity ganging ("No Fins Broken")
  – Large Nova T☆ controls (1500/2000 W)
  – Nova controls
  – Color change applications
  For more information visit
  lutron.com/customganging.

- Ports are rated for a minimum of 10,000 insertions and removals
- Includes 1-gang wallplate

Tamper-resistant USB receptacles*

15 A 125 V	NTR-15-UBTR-**XX**[1]

GFCI receptacles

- Self-testing technology allows GFCI to automatically check proper operation every 30 seconds
- LEDs indicate status of GFCI protection function
- Press reset button to reset GFCI after circuit interruption
- Includes 1-gang wallplate

Tamper-resistant, self-testing GFCI receptacles*

15 A 125 V, GFCI	NTR-15-GFST-**XX**[1]
20 A 125 V, GFCI	NTR-20-GFST-**XX**[1]

Isolated ground receptacles

- Receptacle is orange for easy ID and circuit delineation
- Model number color code is for wallplate only
- Includes 1-gang wallplate

Isolated ground receptacles*

15 A 125 V	NTR-15-IG-OR-**XX**[1]
20 A 125 V	NTR-20-IG-OR-**XX**[1]

Receptacles for dimming use

- Duplex for dimming both connected loads
- Projecting nubs prevent standard plugs from being used
- Requires replacement plug for dimming table and floor lamps
- Includes 1-gang wallplate
- Tamper-resistant shutter mechanism

Dual dimming, tamper-resistant receptacles*

15 A 120/125 V	NTR-15-DDTR-**XX**[1]
20 A 120/125 V	NTR-20-DDTR-**XX**[1]

Receptacles for half dimming use

- Top half for dimming
- Projecting nub prevents standard plug from being used
- Requires replacement plug for dimming table and floor lamps
- Bottom half is a general use receptacle and will fit standard duplex plugs
- Includes 1-gang wallplate
- Tamper-resistant shutter mechanism

Half dimming, tamper-resistant receptacles*

15 A 120/125 V	NTR-15-HDTR-**XX**[1]
20 A 120/125 V	NTR-20-HDTR-**XX**[1]

Replacement plugs for dimming

- Required for use with Lutron receptacles for dimming purposes—plug will also work in a standard receptacle
- Easily replaces the existing plugs on lamps

Replacement dimming plugs

120/125 V	RP-FDU-10-**XX**[2]

UL/CSA/NOM regulatory approvals

Important notes

- Receptacles and plugs for dimming use are UL Listed for use with all Lutron wallbox dimmers included in this catalog.

- If there is only one electrical feed to the receptacle, then the duplex DFDU must be used.

- If the hot and dimmed hot feeds to the split duplex HFDU are supplied from different circuits or split-wired, with separate switch-legs, a means to simultaneously disconnect these circuits must be provided at the panel board where they originate (NEC 210.7(C) 2002 Edition). A 2-pole circuit breaker or two single-pole circuit breakers with an approved handle tie can be used to accomplish this simultaneous disconnect. Feed-through dimming panels, which are those without breakers, are recommended when using the HFDU.

- For more information on dimming lamps, consult Lutron Application Note #109, Guide to Dimming Portable Lamps via Receptacles, at **lutron.com/applicationnotes.**

Wireless Control

(See Pico wireless remote section for models)

Product family features

• Uses Lutron Clear Connect radio frequency
(RF) technology, which provides reliable RF
communication with Pico wireless remotes and
Radio Powr Savr wireless sensors.

• Combine up to 10 wireless devices (dimmers,
switches, sensors, and/or wireless remotes)

• Easy to install, requires no wiring tools

• Available in 1- or 3-receptacle models

• Button presses associate the module with
Radio Powr Savr sensors and Pico wireless remotes

• Male plug on 24 in (610 mm) cord

• Female receptacle on 6 in (150 mm) cord

• Communicates at 434 MHz frequency

Why choose Caséta Wireless?

Smartphones and tablets have been adopted at a rapid pace, and homeowners are making these devices their new point of control. Caséta Wireless provides simple, affordable, and reliable control of lights, shades, and temperature from anywhere.

A truly scalable solution

- Start by installing Caséta Wireless dimmers and a Pico remote for simple connected control
- Add the Smart Hub and Lutron App for control from your smart device
- Expand the system at any time to an entire room or the whole home

Lutron App

Smart Hub

In-wall dimmer

Clear Connect Wireless

Plug-in lamp dimmer

Pico remote control on pedestal
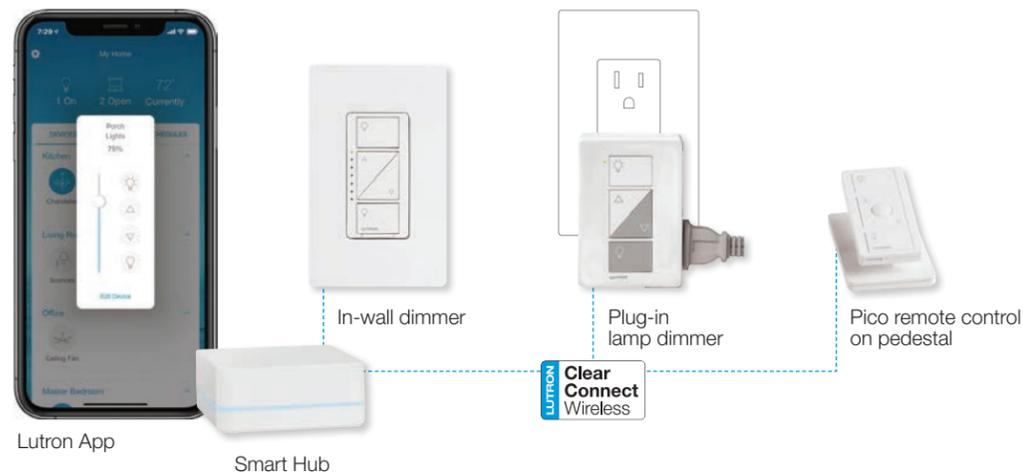

An easier 3-way

- Dimmer does not require neutral wire
- Mount remote on any surface — without cutting holes
- No wiring necessary for remote

Step 1
Install Caséta Wireless dimmer

Step 2
Mount Pico remote

A smarter timer

- Set the timer once and never have to reset it again
- Timer schedules automatically adjust when seasons change
- No reprogramming for daylight saving or power outages
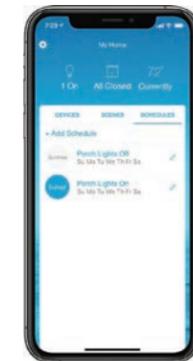

Provide integrated solutions

Caséta Wireless integrates with the most popular connected home devices to provide a complete smart home solution.

Control types

▢ Single-pole (1 location)

▢ 3-way (2 locations)

▢ Wireless multi-location (up to 11 locations)

Product family features

- Control your lights from anywhere
- Uses Lutron Clear Connect radio frequency (RF) technology, which provides reliable RF communication with Pico wireless remotes, Radio Powr Savr wireless occupancy/vacancy sensors, and Smart Hubs
- LED+ models available
- Control and schedule lights from the Lutron App when paired with a Smart Hub
- Use Pico wireless remotes for additional dimmers/switches in multi-location applications
- Communicates at 434 MHz frequency
- Coordinating Claro wallplates only available separately
- All models must be derated unless otherwise noted. Visit **lutron.com/multigang** for more information.

Direct load type compatibility

▢ Dimmable LED/CFL lighting (screw-base)

▢ Incandescent/halogen lighting

▢ Magnetic low-voltage lighting

▢ Electronic low-voltage lighting

▢ LED lighting

▢ Fluorescent lighting

▢ Switched lighting/fan/motor

Load type requiring load interface

▢ Neon/cold cathode lighting

Lighting load interfaces may be required for some load type, voltage, and capacity combinations. For additional information see "Lighting Load Interfaces."

Lamp Dimmer, Remote	P-PKG1P-WH

Visit **lutron.com/CasetaKits** for more information

Smart Lamp Timer Kit

- Perfect for rooms with no overhead lighting
- Control lights with voice integration, the Lutron App, or a Pico remote

  Ideal for living rooms and bedrooms

Smart Lamp Timer Kit

Lamp Dimmer, Remote, Smart Hub	P-BDG-PKG1P

Wireless in-wall dimmers
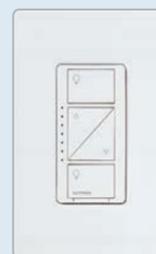

- Simple, intuitive design with on, off, and raise/lower buttons
- Provides true dimming from each location with Pico wireless remotes
- Offers superior dimming of dimmable LEDs/CFLs, as well as halogens and incandescents
- PRO and ELV+ models work with magnetic low-voltage lighting, and are compatible with Lutron 2-wire forward phase LED drivers, Tu-Wire fluorescent ballasts and load interfaces; ELV+ models also work with electronic low-voltage lighting

*   HomeKit requires an iPhone, iPad, or iPod touch. Controlling HomeKit-enabled accessories from home also requires an Apple TV with Apple TV software. Check Apple's website to find requirements for supported iOS and Apple TV versions.

Product family features

- Allows for setup, control, and monitoring of Caséta Wireless devices and Lutron wireless shades from a smartphone, tablet, or wearable
- Supports Apple HomeKit* technology, which allows Caséta Wireless devices and Lutron wireless shades to be controlled by Siri
- Smart Hub uses Lutron reliable Clear Connect radio frequency (RF) technology, which provides reliable RF communication with Caséta Wireless dimmers and switches, Pico wireless remotes, and Lutron wireless shades
- Smart Hub supports up to 75 wireless devices (dimmers, switches, thermostats, remotes and/or shades); the Smart Hub counts as one device
- Lutron App provides:
  – Scene control
  – Timeclock scheduling of daily events
  – System access from anywhere in the world
  – Geofencing support
- Multi-home control
- Lutron App is required for programming and use of Smart Hub—compatible with iOS (7.0 or later) and Android (4.1 or later) devices
- Lutron App is compatible with other connected home solutions, such as smart thermostats and audio systems. For a full list visit **casetawireless.com/integration**.
- Smart Hub connects to Wi-Fi router via Ethernet (3 ft cable included); local device operation will continue to function if internet connection is lost
- Smart Hub PRO model supports Serena and Sivoia QS Triathlon shades, and integration with select A/V and security systems
- Smart Hub communicates at 434 MHz frequency and has an RF range of 30 ft (9 m) through walls and floors to other RF devices
- Smart Hub requires 120 V source for 5 V DC adapter (included)
- Smart Hub available in White
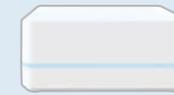

Smart Hub

- Supports up to 75 wireless devices
- Connects to Wi-Fi router via Ethernet
- Supports Siri and HomeKit technology, and Serena shades

Shown: Serena battery-powered honeycomb shade

Product family features

- Battery-powered, wire-free, remote controlled shades
- Ultra-quiet operation
- Set multiple shades in motion with a single button press
- Adjust shades from anywhere in the home with a wireless remote or from anywhere in the world with the Lutron App and Smart Hub
- Radio frequency (RF) control uses Lutron Clear Connect RF technology
- RF shades communicate at 434 Hz frequency
- Lutron power technology utilizes a hybrid drive design and ultra-efficient standby power, which provides long battery life
- Cordless design creates a safe solution for homes with children and pets
- Shades are offered in a variety of fabrics, colors, textures, and opacities
- Manual version also available

For more information visit **lutron.com/serena**

Roller shades

This contemporary and stylish window treatment combines superior functionality with a clean and elegant aesthetic. The innovative headrail simply tips forward to reveal the battery tray, making changing the batteries effortless, without ever removing the shade.

Shades are available in a variety of fabric colors and textures. Choose from sheer, translucent, and blackout fabric options.

Sheer
- Open weaves preserve views to outside and filter sunlight
- Ideal for rooms where complete privacy is not necessary

Translucent
- Tighter weaves transform harsh daylight into a soft, filtered glow
- Provides increased privacy for spaces like bathrooms

Blackout
- Opaque fabrics block light from entering the space
- Ideal for bedrooms and media rooms to achieve complete privacy

Honeycomb shades

This stylish, functional, automated shade adds convenience, enhances décor, and saves energy. Air pockets trap heat to provide superior insulation for enhanced HVAC energy efficiency.

When selecting a shade fabric, you don't need to sacrifice fashion for function. Exclusive Tap n' Tilt technology makes changing the batteries effortless, without ever removing the shade. Whether you want to cut glare, add insulation, or block sunlight, you can choose from a beautiful palette of colors and textures that will meet those needs, all while adding a signature look to every space.

Light-filtering – Single-cell
- Transforms harsh daylight into a soft, filtered glow
- Provides varying levels of privacy from the outside
- Saves energy with insulating fabric and design

Light-filtering – Double-cell
- Allows some light to filter into the space
- Saves even more energy with double-cell insulating design

Room-darkening – Single-cell
- Blocks light from entering into a space
- Creates complete privacy from the outside
- Saves the most energy due to aluminum lining

Check out our wide range of colors at **lutron.com/Serena** or download the Lutron Fabric Collections app on the App Store.

Simple, scalable, wireless lighting control — Flexible control every step of the way

- Flexibility of the system allows you to design the building to meet your needs
  - The same suite of products allows you to design a simple, single-room solution or a fully integrated lighting management system
  - Multiple control options — combine individual fixture control and area control and easily match controls to any fixture package
  - Meet all of the latest energy codes and standards
- Less wiring reduces labor by 70%, and wireless technology makes setup as simple as pushing a button or using your smart device
- Monitor, adjust, and manage your system from any smart device to maximize your building's energy savings and occupant comfort

Transform existing buildings with wireless lighting control

Flexible, wireless controls and sensors for simple, code-compliant design

Communication protocols

Clear Connect Wireless — Communicate via RF to control components

Wi-Fi — Communicate via Wi-Fi to smart devices

Communicate with wired Ethernet to Vive hub

Scalable solutions — start small and grow

Vive wireless solutions offer a multi-strategy approach that accommodates your budget and performance needs now, and for the future of your building.

1

Single office space

Start by adding control in a single space and expand as budgets and occupant schedules allow.

2

Single floor

Expand to new areas or an entire floor at any time without reprogramming or replacing existing equipment.

3

Multiple floors

Duplicate the success of one floor across other floors as your business expands or tenants change. Control can be independent on each floor, or linked via Vive wireless hubs.

4

Entire building

Vive offers seamless integration to other building management systems to control every light in your building.

Product family features

- Provides a connection point for up to 700 Lutron Vive devices, such as Vive Maestro Wireless dimmers/switches, Vive PowPak remote-mount modules, Vive PowPak wireless fixture control modules, Pico wireless remotes, Radio Powr Savr wireless occupancy/vacancy sensors, and Radio Powr Savr wireless daylight sensors

- Communicates with Vive devices via Lutron's reliable Clear Connect radio frequency (RF) technology

- Connects directly to any smartphone, tablet, or computer using built-in Wi-Fi

- Allows for easy programming with any Wi-Fi enabled iOS or Android compatible device using the free Lutron Vive app (available for download from the App Store or Google Play) or by using web-based software

- Supports timeclock events based on both sunrise and sunset, or fixed time of day

- Ethernet connection available to network multiple Vive hubs together and to provide native BACnet integration into the building management systems

- RF and Wi-Fi range of 71 ft (22 m); Pico wireless remotes and Radio Powr Savr wireless sensors communicate directly with load devices and must be located within 30 ft (9 m) of the device to which they are associated

- Communicates at 434 MHz frequency and 2.4 GHz

- Open ADR 2.0 compatible for integration with utilities for demand response/loadshed and code compliance

- API integration, native on the Vive hub, enables integration with third party devices, systems, and software. RESTful APIs are available over the ethernet

- To ensure system operates as expected, proactive alerts inform when batteries are low or devices may not be working

Vive wireless hub

- Starter hub supports 75 devices. Standard hub supports 700 devices

- Integrated multi-color LED provides feedback

- Flush-mount available for starter hub. Flush and surface mount options available for standard hub

Vive wireless hub with power supply and mounting adapter

Flush-mount starter hub (75)	HJS-0-FM
Flush-mount standard hub (700)	HJS-1-FM
Surface-mount standard hub (700)	HJS-1-SM

For HJS-1-FM and HJS-1-SM, please contact sales for a quote.

Premium Vive wireless hub

- Supports up to 700 Lutron wireless devices

- Allows for native BACnet integration into building management systems

- Integrated multi-color LED provides feedback

- Flush-mount or surface-mount options available

Premium Vive wireless hub with power supply and mounting adapter

Flush-mount adapter	HJS-2-FM
Surface-mount adapter	HJS-2-SM

Please contact sales for a quote.

Vive Vue software

- Facility management solution that provides the ability to tie multiple Vive hubs together in one software interface

- Allows ability to view status, control lights, and optimize building with a graphical floorplan

- Provides occupancy, usage, and energy information along with historical reports

Vive Vue software

Product family features

• Uses Lutron Clear Connect radio frequency (RF) technology, which provides reliable RF communication with up to 10 Pico wireless remotes, 10 Radio Powr Savr occupancy/vacancy sensors, 1 Radio Powr Savr wireless daylight sensor*, and 1 Vive wireless hub

• Compatible with Vive hub, which enables a simple setup process using the Vive app or a standard web browser; also permits control and monitoring of all Vive devices

• Mounts through a 1/2" NPT trade size knock-out to a junction box or to a fixture

• Can also be mounted inside of a standard 4" x 4" junction box

• RF range of 60 ft (18 m) line-of-sight, 30 ft (9 m) through walls and floors to other compatible RF devices

• Communicates at 434 MHz frequency

• Also available in Emergency Models for use in control of emergency lighting

Compatible with any IEC 60929 Annex E compliant driver or ballast.

EcoSystem/DALI

• Compatible with any Lutron EcoSystem LED driver or ballast for high-performance dimming and control

• Multiple drivers/ballasts connected to control module will always work together as a single zone

◣ EcoSystem LED/driver fluorescent ballast fixture dimming module

Vive PowPak single zone

32 drivers/ballasts 120/277 V	RMJS-ECO32-SZ

Phase select dimming module

• 120/277 V voltage phase control for various dimmable fixture types: LED, fluorescent 2-wire fixtures, ELV/MLV track lighting, neon/cold cathode light

• PRO LED+ technology, enables forward or reverse-phase control for optimal dimming down to as low as 1%

• RTISS technology compensates for incoming line variations such as frequency shifts, harmonics, and line noise

Phase selectable dimming module

Vive PowPak phase selectable dimming module,

450 W Inc/ELV/LED reverse (120 V/277 V), 400 VA fluorescent (120 V/277 V), 400 VA MLV/LED forward (120 V/277 V), NEMA LED SSL7 (120 V only)	RMJS-PNE-DV
Emergency model, 450 W Inc/ELV/LED reverse (120 V/277 V), 400 VA fluorescent (120 V/277 V), 400 VA MLV/LED forward (120 V/277 V), NEMA LED SSL7 (120 V only)	RMJS-PNE-DV-EM

Relay modules

- General purpose switch controls lighting, fan, and motor loads
- Uses patented Softswitch technology to extend relay life to average 1,000,000 cycles
- Available with dry contact closure output for integration with third-party equipment; provides occupancy status

Switching module

2.94 in (75 mm)

4.69 in (119 mm)

.30 in (7.6 mm) profile

Shown actual size: Vive split wireless 15 A receptacle and 1-gang Claro wallplate in White (WH).

Product family features

- Radio-frequency (RF) receptacle with built-in control/antenna used for switching general purpose loads
- May be used to control, but is not limited to, monitors, fans and humidifiers*
- Uses Lutron Clear Connect radio frequency (RF) technology, which provides reliable RF communication with up to 10 Pico wireless remotes, up to 10 Radio Powr Savr wireless occupancy/vacancy sensors, and 1 Vive wireless hub
- Features adaptive switching, which maximizes relay life by switching at the point of minimum energy on the AC power curve
- Capable of controlling receptacles downstream
- Compatible with the Vive wireless hub, which enables a simple setup process using a standard web browser; also permits control and monitoring of all Vive devices
- Available in both 15 A and 20 A versions, and in both duplex and split models
- Includes tamper-resistant shutter mechanism
- RF range of 60 ft (18 m) line-of-sight, 30 ft (9 m) through walls and floors to other compatible RF devices
- Communicates at 434 MHz frequency
- Coordinating Claro and Stainless Steel wallplates only available separately
- Custom engraving available for wallplates. Visit **lutron.com/engraving** for more information.

profile

Shown actual size: Pico wireless remote,
3-button with raise/lower in White (WH)

Product family features

- Wireless master control from any location
- **Requires compatible receiving device**
  (sold separately)
- Available in a variety of colors and button
  configurations with predetermined button labeling
  (4-button zone and scene remotes available with
  custom labeling)
- Nightlight models offer a continuously soft-glowing
  LED that allows the remote to be easily located in
  the dark
- Control a single light, group of lights, plug load,
  or audio system
- Can be wall-mounted, mounted on a tabletop
  pedestal, kept on a car visor clip, or used as a
  handheld control; adhesive-mount for standalone
  wall mounting included with Pico wireless remote;
  all other mounting accessories sold separately
- Simple to install in single- or multi-gang
  applications with Claro
- Battery included; 10-year battery life (3-year battery
  life with nightlight model)
- Communicates via Lutron Clear Connect
  radio frequency (RF) technology to other
  wireless devices, including: GRAFIK T, PowPak
  plug-in, Caséta Wireless, Vive Maestro Wireless,
  Vive PowPak, Vive wireless receptacles, and
  Serena battery-powered shades
- RF range of 60 ft (18 m) line-of-sight, 30 ft (9 m)
  through walls and floors to other compatible
  RF devices
- Operates at 434 MHz frequency
- All Pico models work with every wireless system;
  Caséta models only work with Caseta systems

Product family features

- Simple installation with no wiring
- Battery included; 10-year battery life design
- **Requires compatible receiving device** (sold separately)
- Communicates via Lutron reliable Clear Connect radio frequency (RF) technology to Lutron wireless devices including: GRAFIK T, PowPak plug-in, Vive Maestro Wireless, Vive PowPak, Vive wireless receptacles
- Passive infrared (PIR) with exclusive Lutron XCT technology for fine motion detection
- 360º coverage
- Timeout options include 1, 5, 15, and 30 minutes
- Multiple sensors can be added for extended coverage—refer to receiving device product specification submittals to determine system limits
- For indoor use only; temperature: 32° F–104° F (0° C–40° C)
- Mount within 60 ft (18 m) line-of-sight or 30 ft (9.1 m) through walls of the receiving devices
- Communicates at 434 MHz frequency
- Available in White (WH)
- Sensors in this section are compatible with all wireless systems except Caséta; see the Caséta section for the Caséta wireless sensor

Product family features

- Simple installation with no wiring
- Battery included; 10-year battery life design
- **Requires compatible receiving device**
  (sold separately)
- Communicates via Lutron reliable Clear Connect
  radio frequency (RF) technology to Lutron wireless
  devices including: GRAFIK T, PowPak plug-in,
  Vive Maestro Wireless, and Vive PowPak
- Detects light level and relays information back to
  compatible RF devices
- Designed to give a linear response to changes in
  perceived light level
- Daylight compensation through Lutron reliable open
  loop proportion control
- Light range 0–1600 lx (0–150 fc)
- Limit 1 sensor per RF device; 1 sensor can be
  associated with up to 10 compatible RF devices
- Mount within 60 ft (18 m) line-of-sight or 30 ft
  (9.1 m) through walls, of the receiving devices
- Built-in test mode and temporary mounting
  hardware (included) allows for optimum sensor
  placement and coverage
- For indoor use only; temperature: 32° F–104° F
  (0° C–40° C)
- Communicates at 434 MHz frequency
- Available in White (WH)

Daylight sensor

- Detects light level and relays
  information back to compatible
  radio frequency devices
- Designed to give a linear
  response to changes in
  perceived light level

Daylight sensor

Ceiling mount	LRF2-DCRB-WH

Mounting Location

Determine the daylight sensor mounting location using the diagram below:

- Place the daylight sensor so the viewing area is centered on the nearest window at a distance from
  the window of 1 to 2 times the effective window height (H)
- The effective window height (H) starts at the window sill or 3 ft (1 m) up from the floor, whichever is
  higher, and ends at the top of the window
- Do not position the daylight sensor in the well of a skylight or above indirect lighting fixtures
- For narrow areas where the daylight sensor cannot be placed 1 H–2 H from windows, place sensor
  near windows facing into space

Location for average size areas

Arrow points toward the area viewed
by the sensor (toward windows)
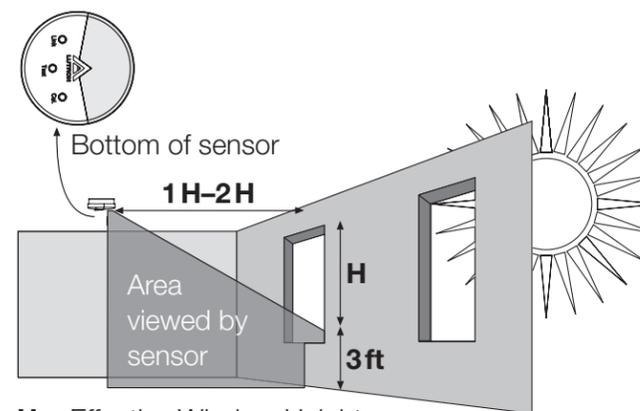

**Location for narrow areas
(corridors, private offices)**

Arrow points toward the area viewed
by the sensor (away from window)

A history of sustainability, innovation, and quality

Sustainability

At Lutron, sustainability is not a new concept. Since 1961, we have been designing industry-leading technology that saves energy and reduces greenhouse gas emissions, and we are a proud member of the U.S. Green Building Council.

Our philosophy

Lutron is a company built on a belief in taking care of the people: customers, employees, and the community. We innovate in advance of emerging market needs and continually improve our quality, our delivery, and our value.

Innovation

Lutron is the global leader in lighting and shade control for the home, workplace and beyond. We offer more than 15,000 products from individual dimmers to lighting and shading management solutions for entire homes and buildings, creating beautiful lighting environments worldwide.

Global service and support

Lutron service and support is unrivaled in the lighting control industry. We offer 24/7 technical support, and a global network of salespeople and engineers who are there from initial project design to final system commissioning, and for the life of your project. For over 60 years we have been committed to taking care of our customers, and we look forward to working with you on your next project.
